REMARKS

Applicants appreciate the courtesy extended by Examiners Cano and Kuhns during the Interview held on October 20, 2005. The attached Interview Summary provides a proper recordation of the substance of the interview.

This response puts forward claim revisions that supplement to the Amendment and Reply filed on January 13, 2005. See also the Supplemental Reply and 37 C.F.R. 1.132 Declaration filed on August 3, 2005.

Claims 1, 7-22, 24, and 26-28 were pending in the application. By this paper, claims 29-34 have been added. Support for new claims 29-34 may be found, among other places in the specification, at page 2, lines 6-17 and at page 4, lines 15-20.

Applicants have added claims 29-34 at the suggestion of Examiner Kuhns. Claims 29 and 32 prescribe that the recited liquid is "non-alcoholic," while claims 30 and 33 state that the combination of the nitrous oxide and nitrogen provides "the liquid with a stiff foaming head." Claims 31 and 34 include both recitations.

In consideration of the enclosed amendments, a favorable disposition of the application is respectfully requested. Applicants believe that the present application is now in condition for allowance. Examiner Kuhns is invited to contact the undersigned by telephone, should there remain any other issue that she feels warrants consideration.

The Commissioner is hereby authorized to charge any additional fees and to credit any overpayment to Deposit Account No. 19-0741.

Respectfully submitted,
